SUMMARY

Full-Stack Developer with 2+ years building and shipping production-ready SaaS platforms with Next.js, NestJS, TypeScript, and PostgreSQL. Delivered a real estate ERP, a multi-role LMS, and a publishing platform with paid memberships, with a strong focus on scalable architecture, authentication, payment systems, and clean, maintainable code.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React, Next.js, Tailwind CSS, TanStack Query, TanStack Table

Backend: Node.js, NestJS, Prisma ORM, Mongoose ODM, REST APIs

Databases: PostgreSQL, MongoDB

Payments & Cloud: Stripe, AWS (S3), Cloudinary, Mux

Tools & Deployment: Git, GitHub, Vercel, Netlify, Render, Jest, Vitest, Codex, Claude Code

Spoken languages: English (fluent), Arabic (native)

PROJECTS

Readium: Full-Stack Publishing Platform

NestJS · Next.js · TypeScript · PostgreSQL · Prisma · AWS S3 · Socket.io · Turborepo · Jest — Source · Live

- Architected and built a full-stack publishing platform as a Turborepo monorepo (Next.js, NestJS) with free and Pro-only stories, a rich-text editor, comments, likes, bookmarks, search, and image uploads to AWS S3.
- Implemented authentication with OAuth, two-factor authentication, RBAC, and rate limiting. Integrated monthly and yearly Stripe subscriptions with webhook handling.
- Developed real-time notifications with WebSockets (Socket.io) and an admin dashboard with analytics, user management, and a report moderation queue. Wrote backend unit tests with Jest.

Bayti — UAE Real Estate Platform

Next.js · TypeScript · Tailwind CSS · PostgreSQL · Prisma · Framer Motion — Source · Live

- Built a full-stack real estate platform with an ERP admin system featuring role-based access control, location mapping, and secure asset uploads, plus user analytics, to manage properties, bookings, and agents.
- Implemented two-factor authentication, property and booking workflows, rich-text blog management, transactional email, and a PostgreSQL data model with Prisma.

Academiq — LMS SaaS Platform

Next.js · TypeScript · PostgreSQL · Prisma · Stripe — Source · Live

- Developed a multi-role LMS SaaS with separate portals for students, instructors, and admins, video streaming, course progress tracking, student analytics, and Stripe subscription billing.
- Built course creation and enrollment workflows, lesson progression and completion tracking, instructor dashboards, transactional email notifications, and video streaming with Mux.
- Modeled complex PostgreSQL schemas with Prisma ORM and integrated Cloudinary for optimized file handling.

EDUCATION

Bachelor of Computer Science

2022–2025

University of the People, California, USA — CGPA 3.97 / 4.0
