SUMMARY

Full-Stack Developer with 2+ years building and shipping production-ready SaaS platforms with Next.js, NestJS, TypeScript, and PostgreSQL. Developed a real estate ERP and AI-powered developer SaaS, with a strong focus on scalable architecture, authentication, payment systems, and clean, maintainable code.

SKILLS

Programming languages: JavaScript (ES6+), TypeScript

Frontend: React, Next.js, Tailwind CSS, Tanstack Query, Tanstack Table

Backend: Node.js, NestJS, Prisma ORM, Mongoose ODM

Databases: PostgreSQL, MongoDB

Tools & Deployment: Git, GitHub, Vercel, Netlify, Render

AI Tools: GitHub Copilot, Claude Code

Languages: English (fluent), Arabic (native)

WORK

Full Stack Engineer | Freelance

Dec 2025 – Present

- Developed custom SaaS and business applications from scratch, transforming requirements into production-ready full-stack solutions.
- Built scalable frontend interfaces and secure REST APIs with authentication, role-based access control, and payment integrations using **Next.js**, **Node.js**, **NestJS**, **TypeScript**, and **PostgreSQL**.

PROJECTS

Bayti – UAE Real Estate Platform | [Github](#) | [Live](#)

- Built a full-stack real estate platform featuring an ERP admin system with role-based access control, location mapping, and secure asset uploads to manage properties, bookings, and agents.

Academiq – LMS SaaS Platform | [Github](#) | [Live](#)

- Developed a multi-role LMS SaaS featuring multi-tier access portals, video streaming infrastructure, course progress tracking, and integrated Stripe subscription billing.

DevNest – AI-Powered Developer Knowledge Hub (SaaS) | [Github](#) | [Live](#)

- Built a full-stack SaaS for developers to store, organize, and search snippets, prompts, and notes, featuring automated Stripe subscriptions and AI capabilities via Gemini.

EDUCATION

Bachelor of Computer Science

The University of the People, California, USA

2022-2025
